

Building Trust Bridges: Strategies for Team Connectivity

13 June 2024 | 9.30 AM - 4 PM |

Venue: TBC, Level 2, Le Quadri Hotel

Overview

The "Building Trust Bridges: Strategies for Team Connectivity" workshop is designed to help leaders and teams enhance trust and improve workplace communication. Participants will acquire practical tools and techniques for fostering open dialogue, creating an environment of mutual respect, and developing a collaborative team culture.

Building trust is crucial for supporting health and well-being within an organization. When team members trust each other, it reduces workplace mental stress, leading to increased engagement and job satisfaction at both individual and corporate levels.

Course objectives include understanding the importance of trust in team dynamics, defining and recognizing trust, identifying key elements for building trust, developing strategies to enhance team connectivity, learning effective communication techniques, and applying practical tools to strengthen team relationships.
