

HAZARDOUS MATERIAL MANAGEMENT AND SPILL PREVENTION

29 Nov 2024 | 9am - 5pm |
Level 2, Le Quadri Kuala Lumpur

Overview

The Hazardous Material Management and Spill Prevention workshop is designed to provide participants with essential knowledge on safely managing hazardous substances. This course focuses on preventing harm from exposure by teaching participants how to properly identify, handle, and contain hazardous materials in the workplace.

Through practical sessions, participants will learn effective methods for quickly responding to spills or leaks, helping to control incidents until professional assistance arrives. This training emphasizes the importance of rapid response and proactive safety measures, ensuring a safe environment for everyone involved. It's essential for anyone working in environments where hazardous materials are present.
